The detonation, on October 9,

had a yield of more than ten times that of its previous nuclear test in September 2016, the NIS stated on Tuesday. The IAEA has announced an investigation into the nuclear test. North Korean leader Kim Jong-un personally supervised the test, according to the South Korean National Intelligence Service. The South Korean media reported that Kim had noted the test results on a piece of paper while the test was conducted. As South Korea's largest newspaper Chosun Ilbo reported, the test triggered a new range of responses among the US-North Korean dialogue partners. Pyongyang said it was ready for direct dialogue with Washington, and would abandon the armistice agreement to bolster national defense. Experts said that since Pyongyang does not acknowledge international regulations for nuclear tests, it will continue to test a variety of fissile materials and devices of various sizes and

How can I add a variable that is a concatenation of the filenames that are inside the array in a batch file? Thanks in advance. A: You can read all files, collect their filenames and then use them in the "for /f" loop. @echo off for /f %%a in ('dir /b /a-d *.pdf') do (if not exist "%%a" (echo %%a >> "tmp.txt") else (>> "tmp.txt" echo %%a)) The "tmp.txt" file will contain all filenames, after changing them if they are already there. are not going to let him or her go. You can be at the airport for a week and it's like trying to turn a supertanker. You just can't do it that quickly. O'Dea: You have to recruit the right people because you can't walk in and hire someone and have them be a superstar. You have to train them and evaluate them. It takes a lot of time. And I

can tell you from experience that it's one of the hardest jobs that anyone can have, especially if you want to do it well. What do you think the main culprits are for the Celtics' slow start? O'Dea: I honestly don't know. I don't think it's one thing. I think there have been a lot of negative things that have happened over the last eight years. I think both sides want to make a statement and people don't understand that and don't realize that and it's only going to hurt the locker room more and more. Every time you get a negative news story in the papers about one of our guys, it's going to trigger something in the locker room that's not productive, not healthy and not good for us. I think that's one reason. Can you talk about the transition and how you're trying to work with the young players that are already on the roster? O'Dea: Right now I'm really trying to put the players in a good position to be good. And I think

sometimes when you hire a coach it's the first time you're able to put players in a position where they can succeed. This team is full

Nur in kleinerem Ausmaß dürfen die Nationen sich aufgrund des Verfassungsvertrags und damit der Verfassungskonformität des Rechts jedoch über diese Freiheiten hinaus auch gar nicht erst kontrollieren und gar nicht begrenzen. Berlin (dpa) - Die Bundesrepublik Deutschland steht vor dem Hintergrund ausländischerfeindlicher

Demonstrationen in Frankreich und in Belgien an der Verteidigung der Grundfreiheiten der Meinungsfreiheit und der Pressefreiheit. Das geht aus der Urteilsbegründung eines EuGH-Haushaltsgerichts hervor, die der Deutschen Presse-Agentur vorliegt. Das Gericht wiederholt mehrere Einzelfälle, in denen öffentliche Mitarbeiter sich gegen solche Demonstrationen in Frankreich und Belgien stark gemacht haben. Als weitreichendste Folge dieser
